Shared Ownership is another way to buy your home. You buy a percentage and pay rent on the rest - Guinness owns part of it - but you're living there, you decorate it and decide when the time is right to sell for you. Buying a percentage typically means a smaller deposit and a smaller mortgage based on the share price you purchase. In addition to mortgage repayments, you will also pay rent on the share you don't own and a service charge. Examples of these payments can be found below in Important Information: The first part of the application process is a free affordability assessment with one of Guinness; expert mortgage brokers. They will determine your share price and give you a detailed breakdown of the monthly costs you can expect with your purchase. Why not give Guinness Homes a call today and speak to our dedicated sales consultant and find out how Shared Ownership can work for you.
